

INTRODUCTION

This project Travel Management System includes some features for the real travel management system. Also this includes registration of flight for any country you want. You can enter the farther information as number of adults number of chilled and how many weight you have to carry with you etc. Also there are different types of payment methods lik UPI, Net Banking, Debit, Credit. This all process totally online.

ALGORITHM

Step 1:- Start

Step 2:- Create object of Scanner class.

Step 3:- Using While loop.

While=true.

Enter 1st no then Register.

Enter 2nd no then Login.

Enter 3rd no then Logout.

Step 4:- First you have to register.

1) Enter your name.

2) Enter your email id.

3) Enter your phone no.

4) Enter your password.

Step 5:- Then you have to login.

1) Enter your email id as user name.

2) Enter password.

Step 6:- Display Places:-

1)Enter 1st no then see places and price India Country.

2)Enter 2nd no then see places and price Foreign Country.

Step 7:- Take choice from user and booking your package to switch statement.

Step 8:- Use switch statement.

case 1:- Enter 1st no then booking Mumbai to Pune.

break;

case 2:- Enter 2nd no then bookingPune to Satara.

break;

case 3:- Enter 3rdno then bookingSatara to Goa.

```

break;
case 4:- Enter 4th no then bookingMumbai to Aurangabad.
break;
case 5:- Enter 5th no then bookingPune to Kolhapur.
break;
case 6:- Enter 6th no then bookingMumbai to Goa.
break;
case 7:- Enter 7th no then bookingGermany (Munich).
break;
case 8:- Enter 8th no then bookingUK (London).
break;
case 9:- Enter 9th no then bookingSpain (Madrid).
break;
case 10:- Enter 10th no then bookingCanada (Ottawa).
break;
case 11 :- Enter 11th no then bookingDubai (Air Port).
break;
default:- Display message as “Invalid choice!!”.
break;

```

Step 9:- Take user's choice then booking your package.

Step 10:- Enter the number of adults, number of child, price only for adults, weight you carry with you.

Step 11:- Using if-else statement.

```

if(weight > 25)
{
    System.out.println("You carry your weight is perfect and press 1");
}
else
{
    System.out.println("You carry your weight is more than 25kg then extra
charges are apply as 200 Rs.");
}

```

```
}
```

Step 12:- Enter the user choice for pay the bill.

Enter the 1st no bill pay by Debit card.

Enter the 2nd no bill pay by NetBanking.

Enter the 3rd no bill pay by UPI.

Step 13:- Using the switch statement.

case 1:- Debit card.

- i. Enter your bank name.
- ii. Enter account name.
- iii. Enter expiry date.
- iv. Enter CVV number.
- v. Enter the OTP for verification.
- vi. Bill paid

Congratulation !! Booking done successfully...

break;

case 2:-NetBanking.

- i. Enter account number.
- ii. Enter CVV number.
- iii. Enter the OTP for verification.
- iv. Bill paid.

Congratulation !! Booking done successfully...

break;

case 3:- UPI.

- i. Enter UPI id.
- ii. Enter the OTP for verification.
- iii. Bill paid.

Congratulation !! Booking done successfully...

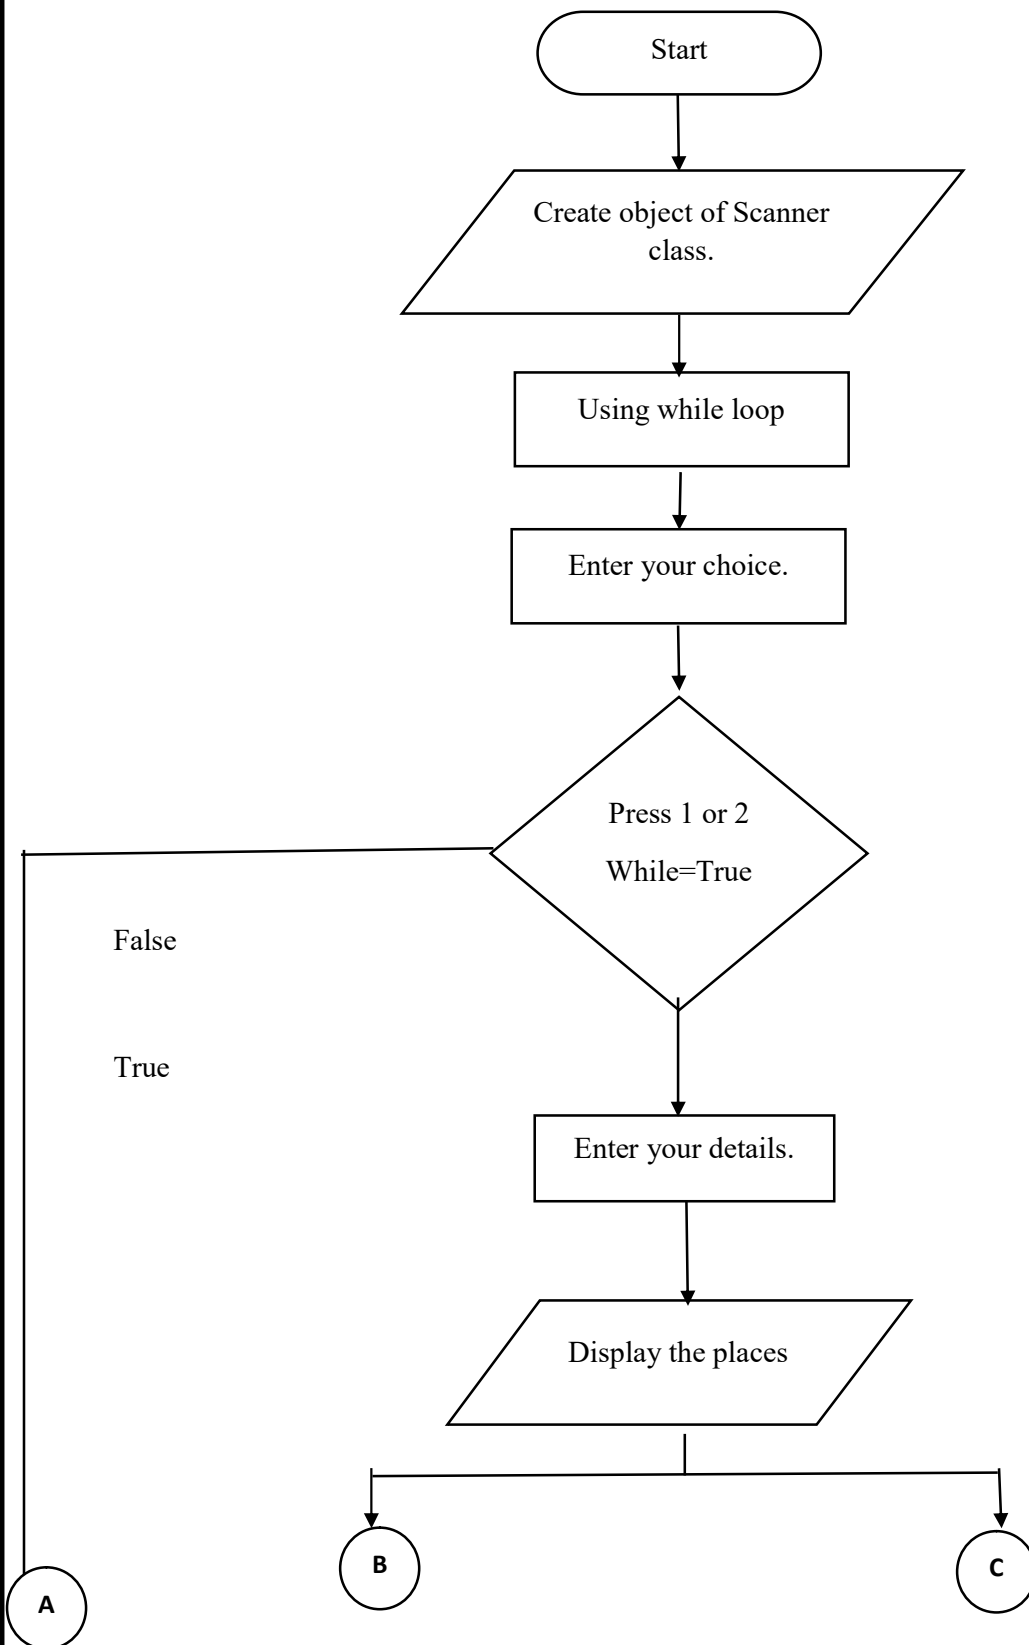

break;

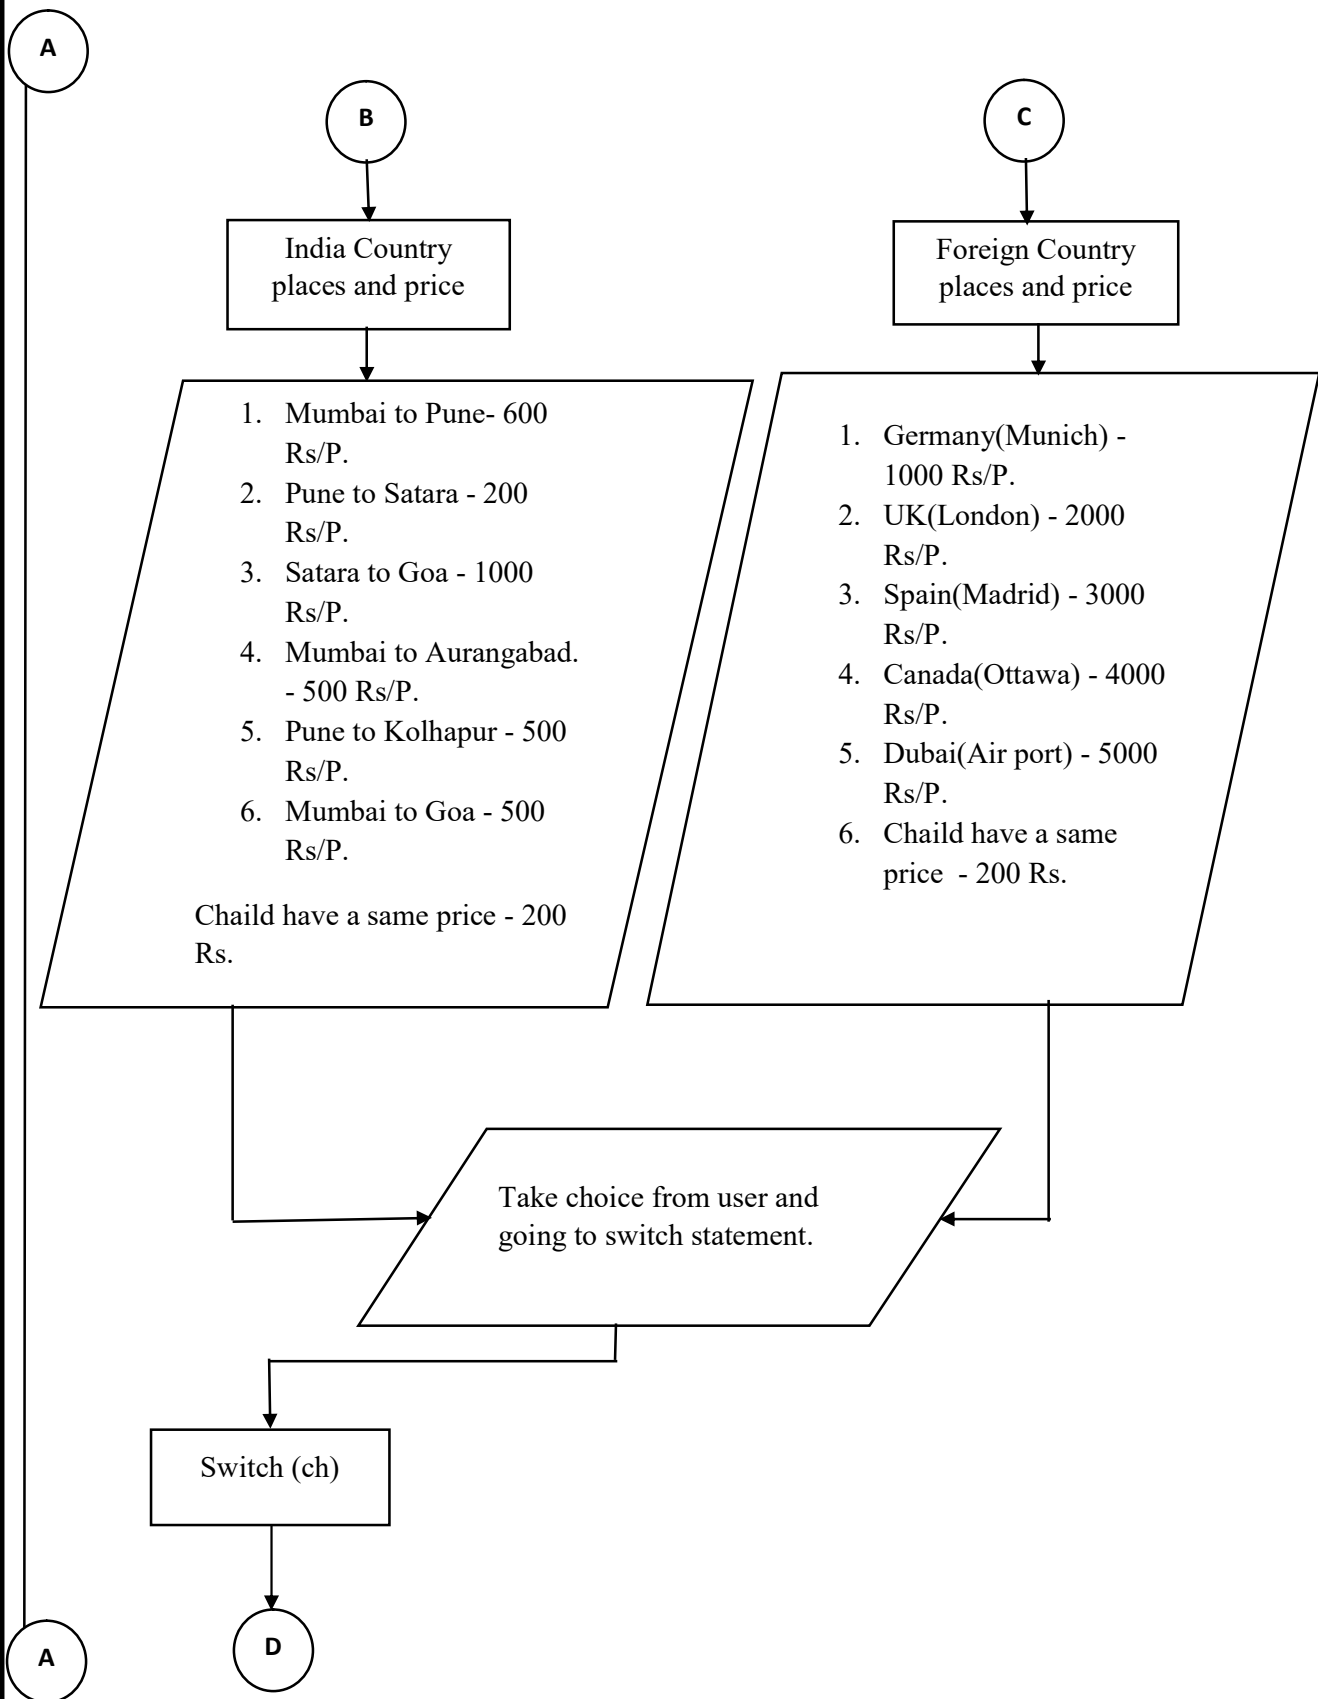

default:-Invalid choice.

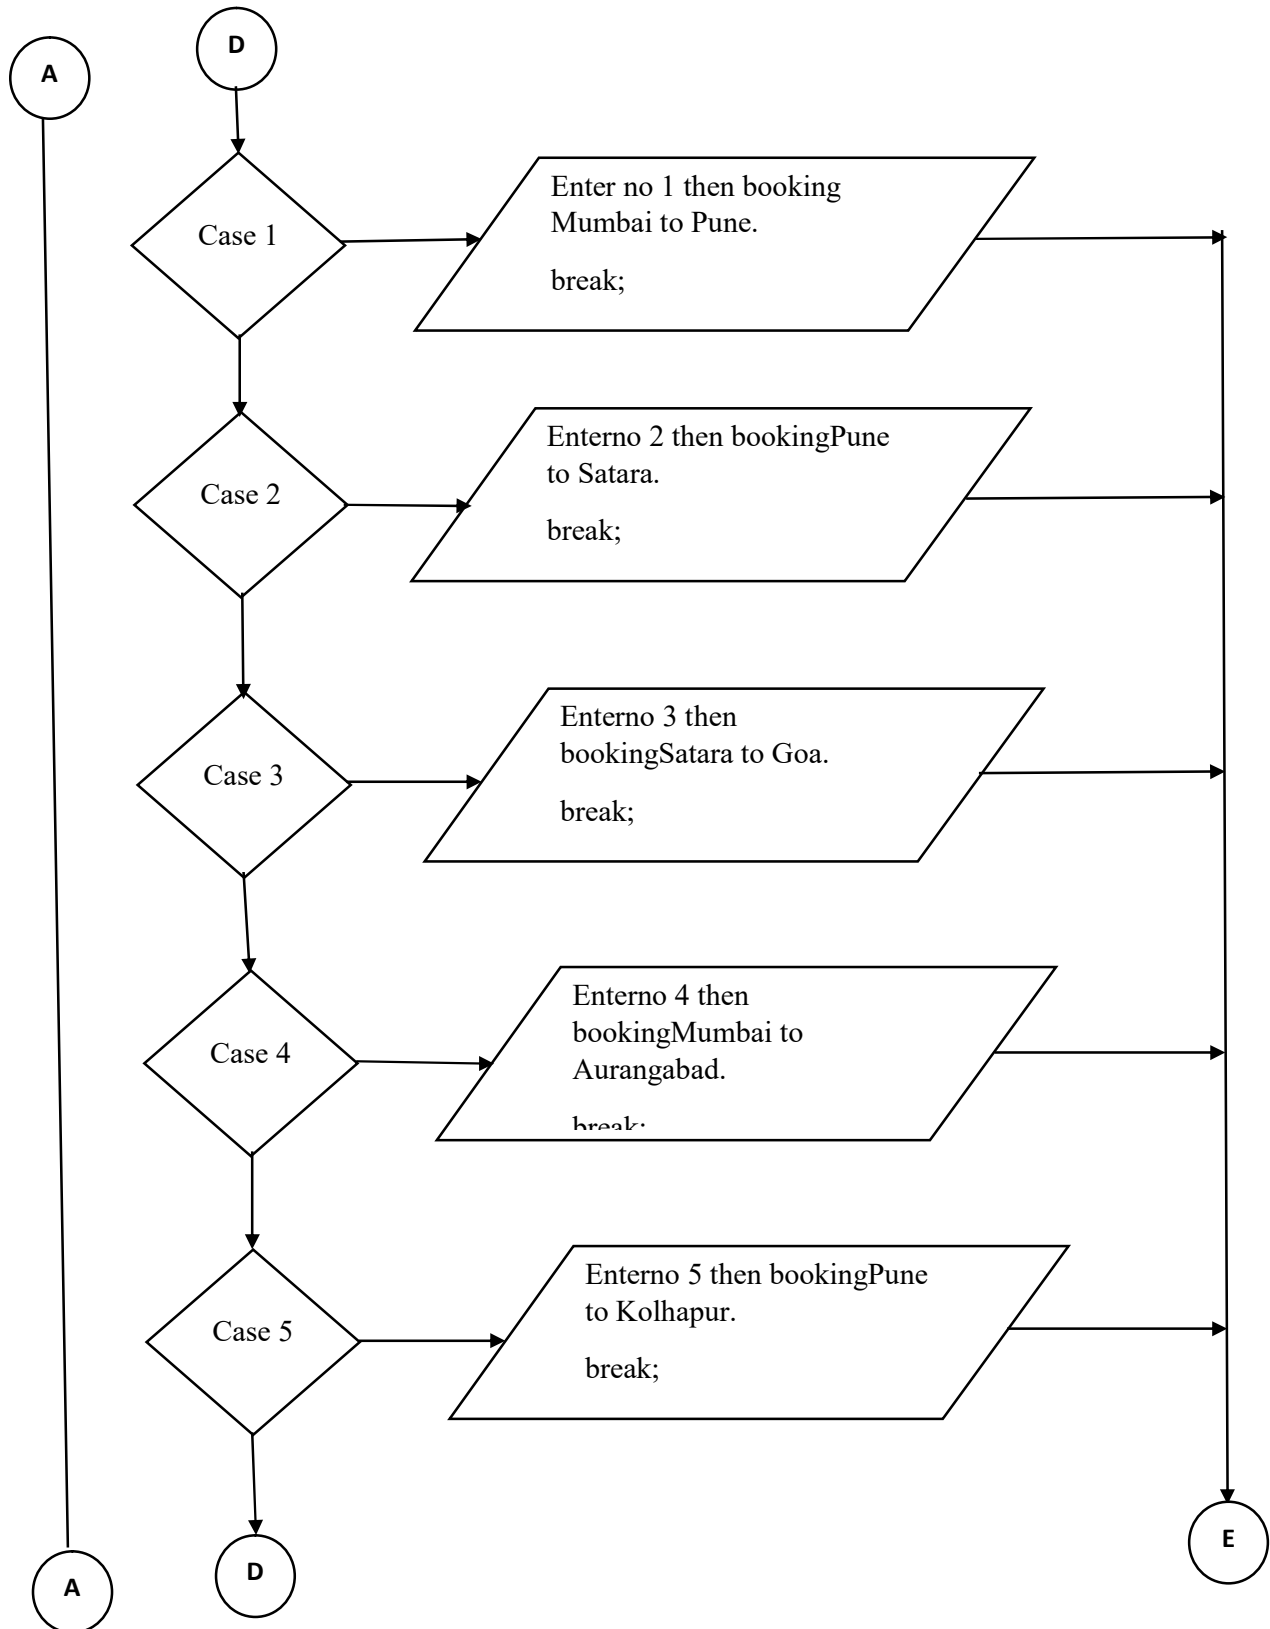

break;

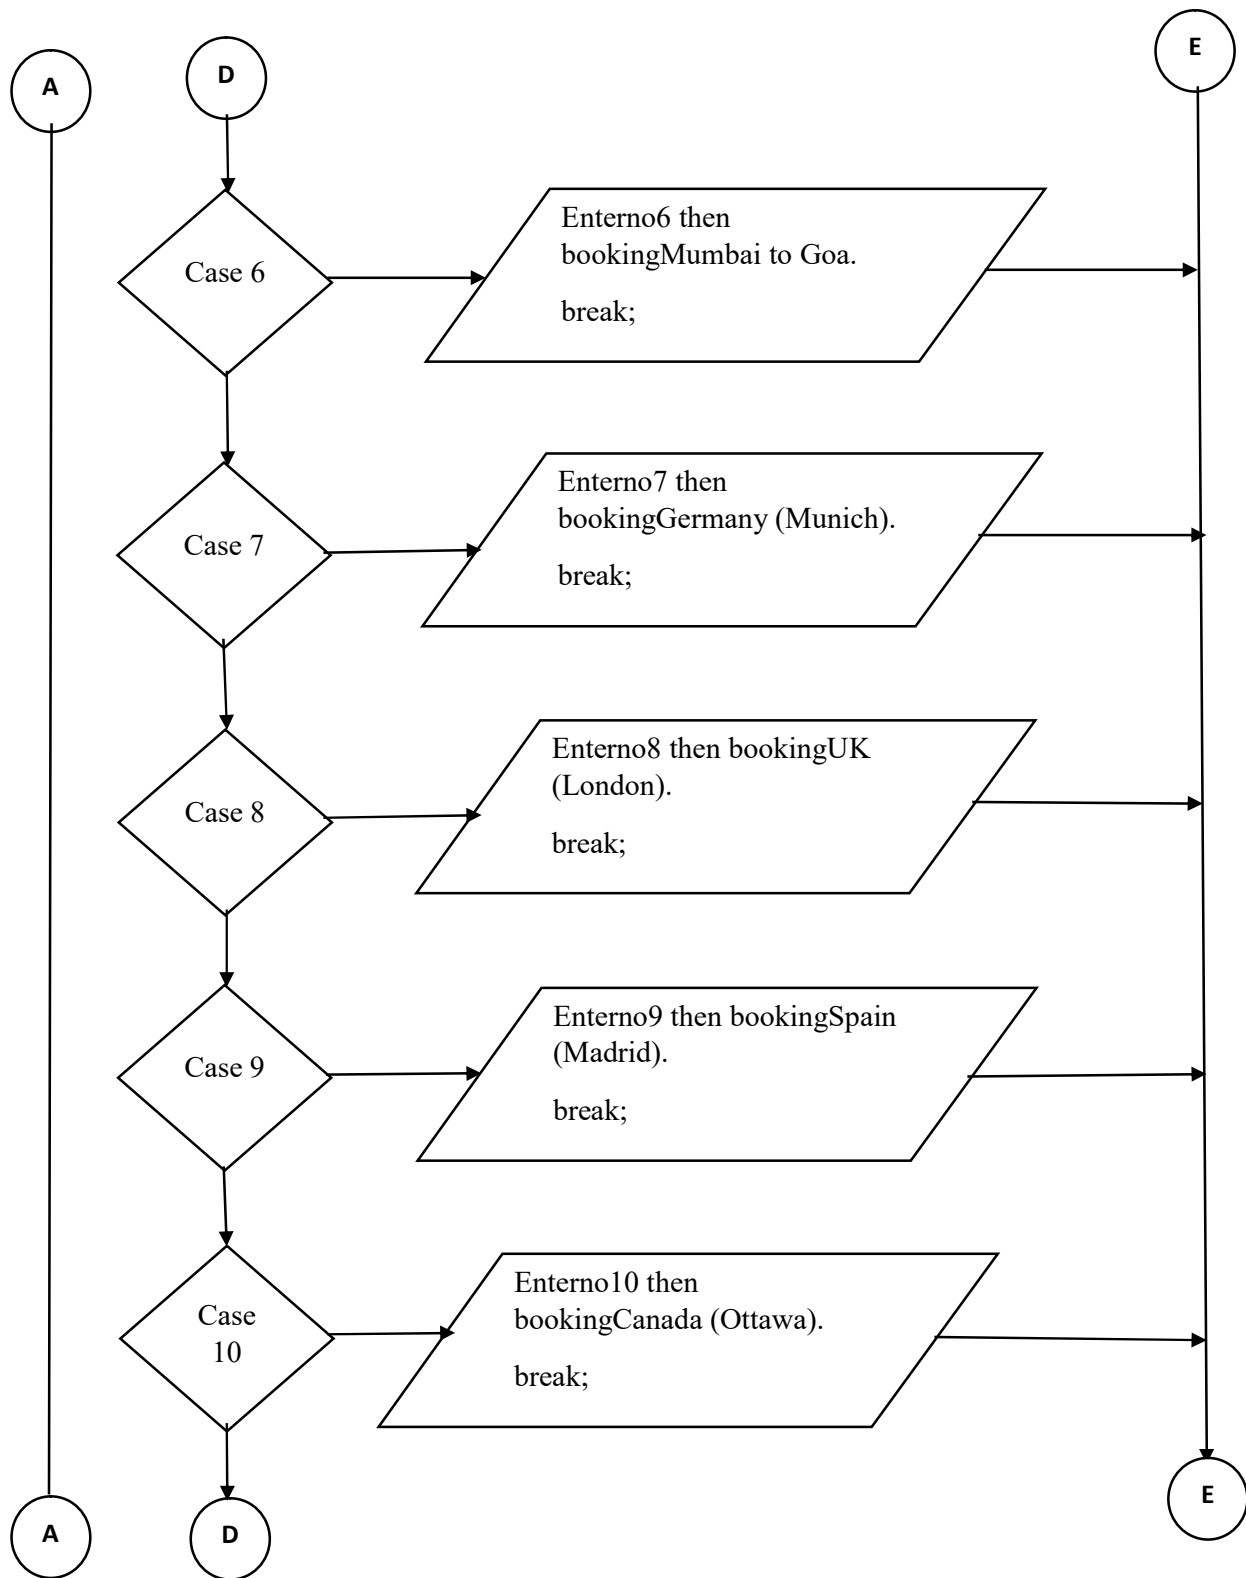

Step 14:- Then last step is Logout your id.

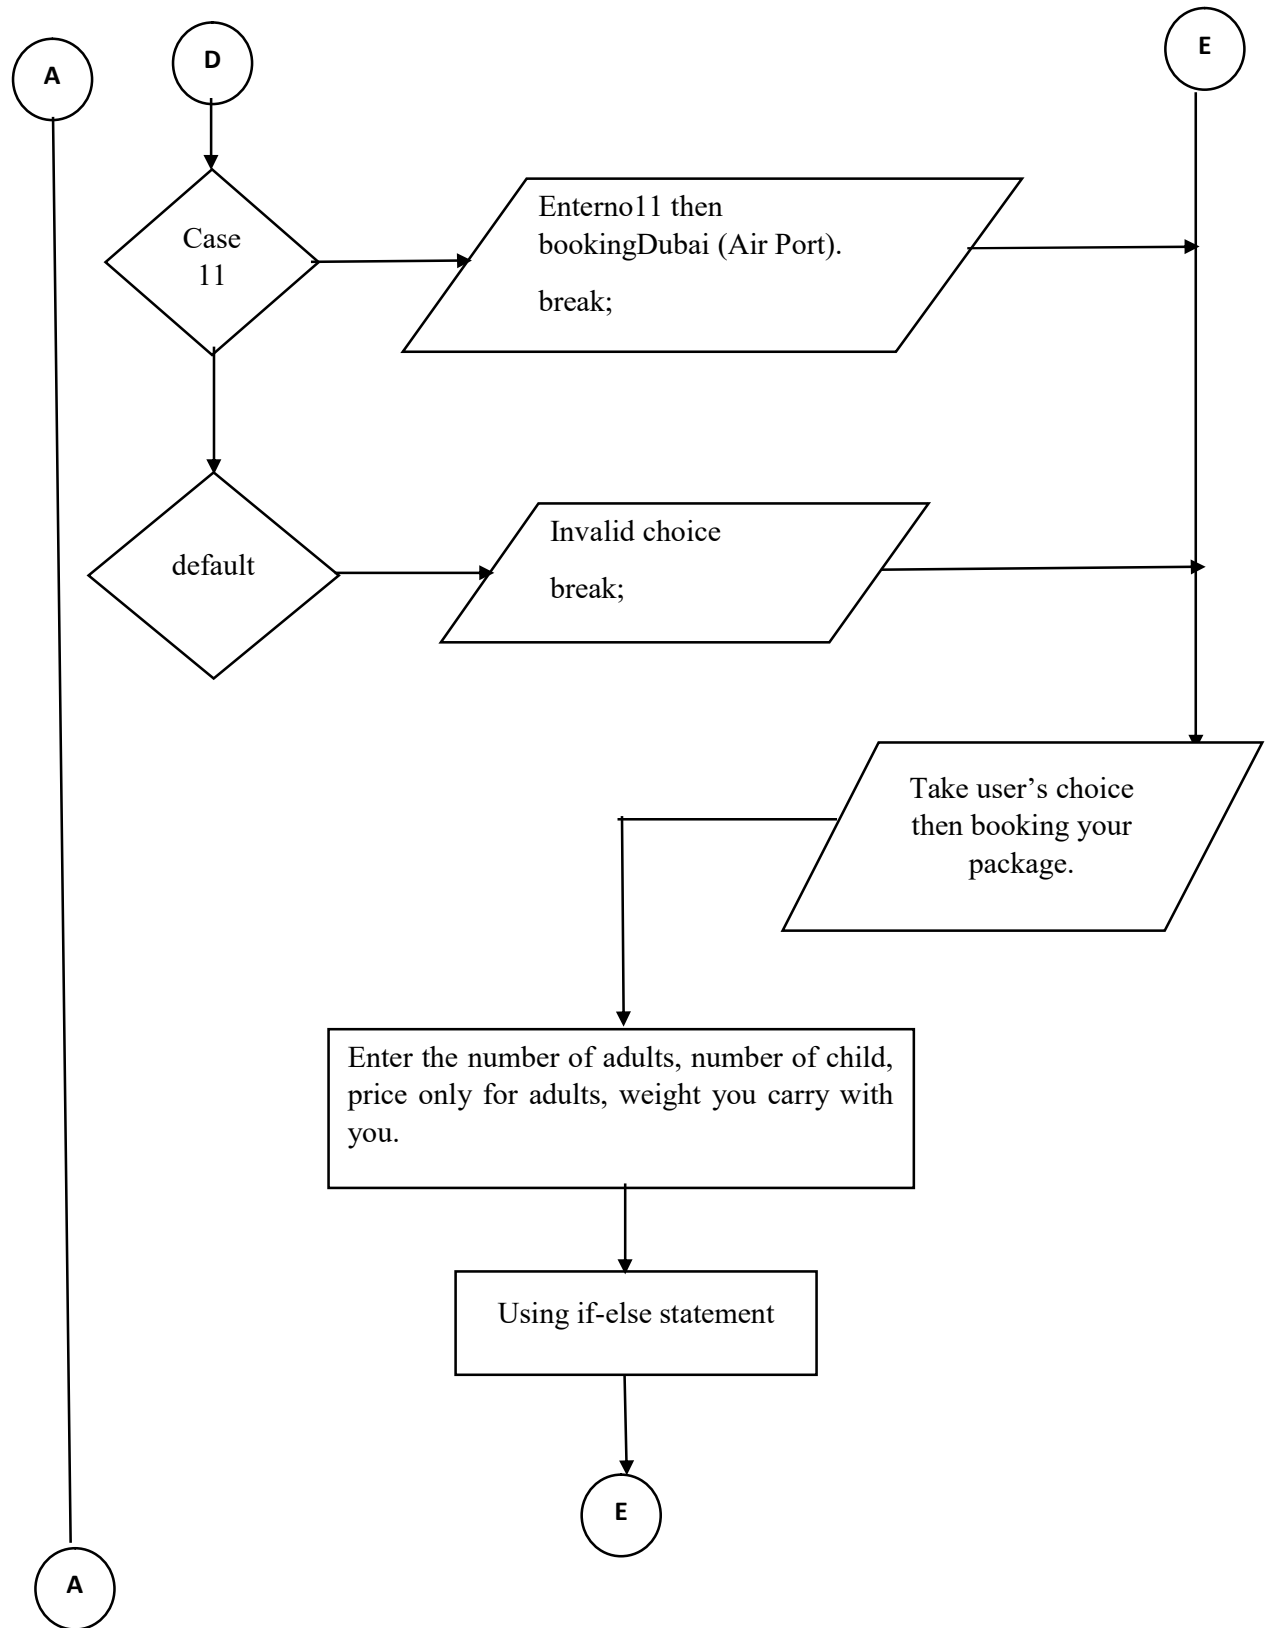

Step 15:- End.

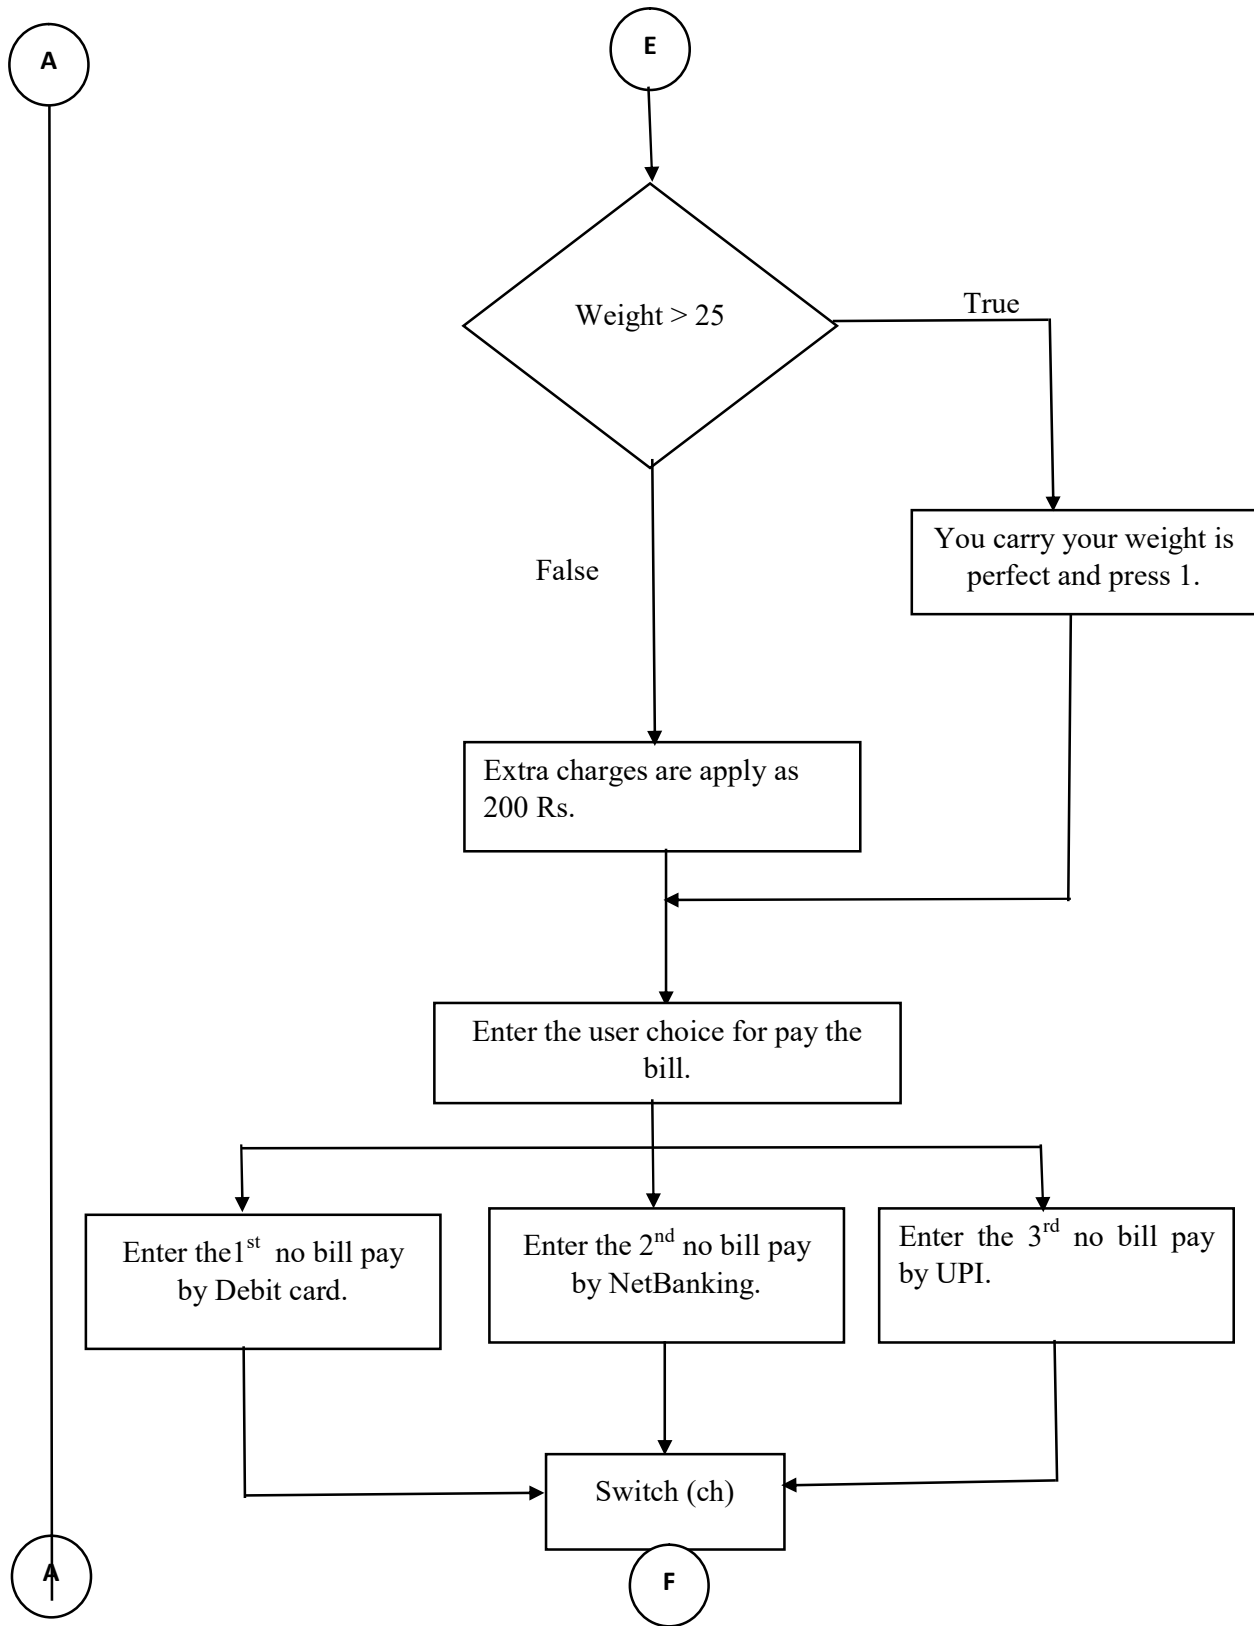

FLOWCHART

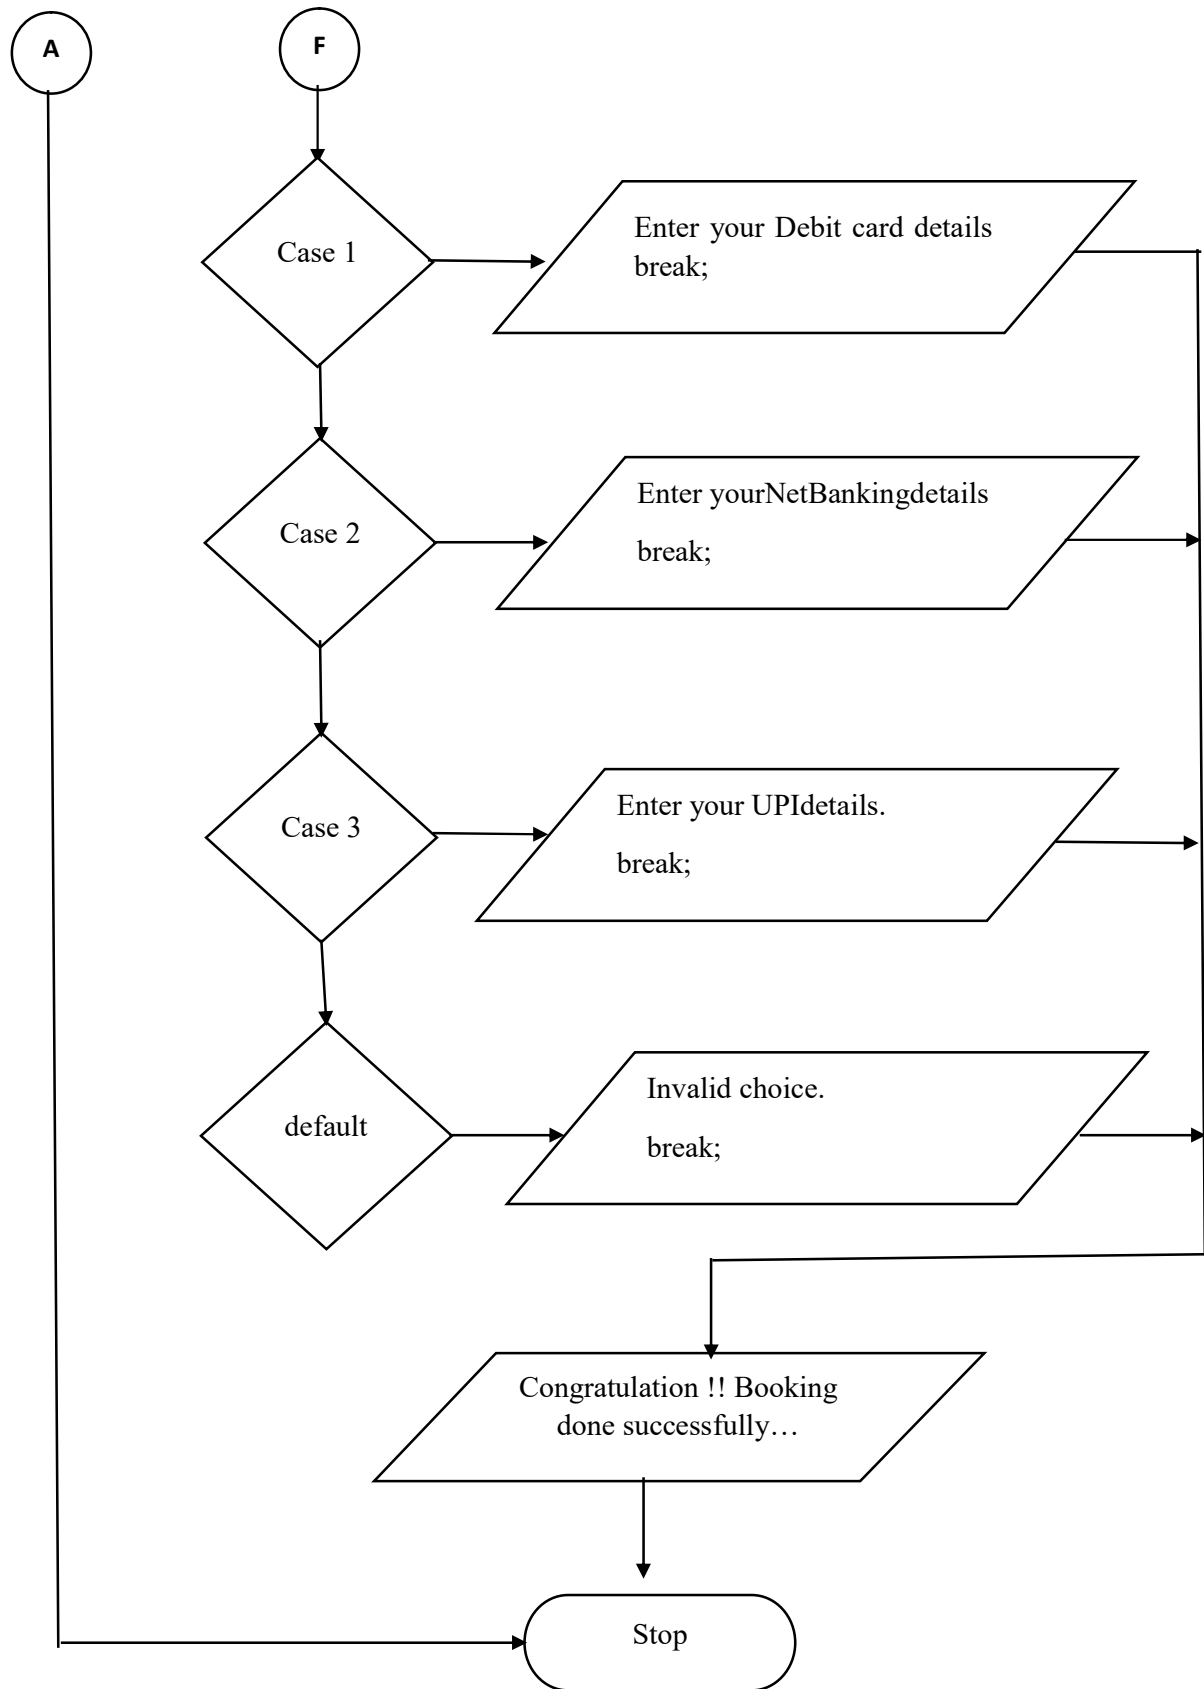

CODE

```
import java.util.*;

}
}while(true);
}
}
```

OUTPUT

1) Register :-

```
***** TRAVEL MANAGMENT SYSTEM *****
1.Register
2.Login
3.Logout

Enter Your Choice:
1
Enter your full name:
[REDACTED]
Enter your Email Id:
[REDACTED]@gmail.com
Enter Phone Number:
[REDACTED]
Set Password:
123
```

2) Login :-

```
***** TRAVEL MANAGMENT SYSTEM *****
1.Register
2.Login
3.Logout

Enter Your Choice:
2
Enter your Email Id as a username:
[REDACTED]@gmail.com
Enter your Password:
123
```

3) Available Flights :-

=====Available Packages=====	
Place	Price
1.Mumbai To Pune	600Rs/Person
2.Pune To Satara	200Rs/Person
3.Satara To Goa	1000Rs/Person
4.Mumbai To Aurangabad	500Rs/Person
5.Pune To Kolhapur	500Rs/Person
6.Mumbai To Goa	500Rs/Person
Chaild Have Same Price - 200/Chaild	
===== Available Packages Foreign Country =====	
Place	Price
7.Germany (Munich)	1000Rs/Person
8.UK (London)	2000Rs/Person
9.Spain (Madrid)	3000Rs/Person
10.Canada (Ottawa)	4000Rs/Person
11.Dubai (Air Port)	5000Rs/Person
Chaild Have Same Price - 200/Chaild	

4) After Flight Selection :-

```
Select Your Package:
```

```
2
```

```
*****Welcome to Booking*****
```

```
Enter the number of adults:
```

```
2
```

```
Enter the number of child:
```

```
1
```

```
Enter the Price only for adults:
```

```
2000
```

```
Enter the wight you carry with you :
```

```
28
```

```
If The wight is grater than 25Kg Press 1 Otherwise Press ENTER..!
```

```
1
```

```
Note -: If the wight is more tha 25Kg extra charges are apply as 200 Rs..!
```

```
Thank You ..! And Continue..!
```

5) Total Bill And Payment :-

```
Total Bill is: 4400.0

Pay Bill by
1.Debit Card
2.NetBanking
3.UPI

Enter your choice:
2

Enter Account Number:
4464316545

Enter CVV Number:
4545

Enter the OTP for verification:
785461
```

6) End :-

```
BILL PAID

**** Congratulations!!!Booking Done Scuccessfully..... ****

===== Enjoy Your Journey =====

***** Thank You For Visiting Us *****
```

ADVANTAGES

1. The simple interface between user and company.
2. The customer should book his/her package by knowing information about packages
3. We have provided facility of choosing packages of traveling and tourism to the user.
4. We have got knowledge about how the user will take a good advantage of this type of interface (software).

APPLICATIONS

- 1) Any tourist agency can make a use of it for saving customer details.
- 2) User can easily choose options included in this system.
- 3) Provided facility of choosing packages of traveling and tourism to the user.

CONCLUSION

- a. We have developed programs using Object Oriented methodology in Java.
- b. We have applied concepts of inheritance for code reusability.
- c. We have implemented exception handling.
- d. We have developed programs for handling I/O and file streams.
